DENTFORMATICS

AMIA Dental Informatics Working Group Newsletter

DI-WG Business Meeting
at the 2021 AMIA Annual Symposium

Thank you for another successful Dental Informatics Working Group Business Meeting. Special thanks to our guest speakers, Dr. R. Bruce Donoff, DMD, MD, past Dean of Harvard School of Dental Medicine, and Shannon Sommers, MSHI, BTDH, RDH, Research Administrator at Delta Dental of Michigan. If you missed their awesome presentations, the file is available on the AMIA Connect platform.

During the meeting, we reviewed the mission, activities we created and participated in this year, our highlight in the Informatics Year in Review, and we welcomed our new DIWG leadership team, whom you will see on the next page.

With your continued support, we will create more webinars, meet monthly, reach out to dental professionals, create a dental informatics curriculum, and act as a mentor group to students interested in dental informatics.

Thank you again. We look forward to being your dental informatics home within AMIA.
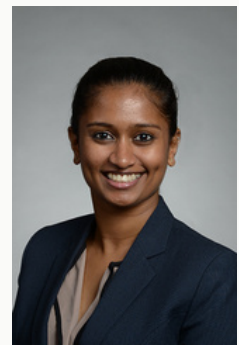

IN THIS ISSUE
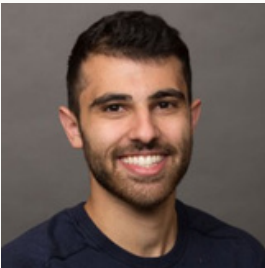

WELCOME THE 2022 DIWG LEADERSHIP

Chair
Sajeesh Kumar, PhD
