FOUR DI-WG SPONSORED EVENTS

The Dental Informatics Working Group is back in full swing! This past November, we sponsored four successful working group events at the 2019 AMIA Annual Symposium in Washington, DC. We started with the **first** Pre-Symposium Workshop on translating clinical and research data to patient centered care on Saturday, DI-WG Annual Business Meeting with honored guest and sponsor FraudLens, Inc. on Sunday, Poster presentation on the Exploration of the DI-WG in AMIA on Monday, and an expert panel about actionable opportunities for improving knowledge at the intersection of dental and medical data. We had interests and participation in our activities from Dental students and scientists from other countries..Enjoy more photos of our events on the final page of this newsletter.
