Online Community
Quick Start Guide.

AMIA CONNECT
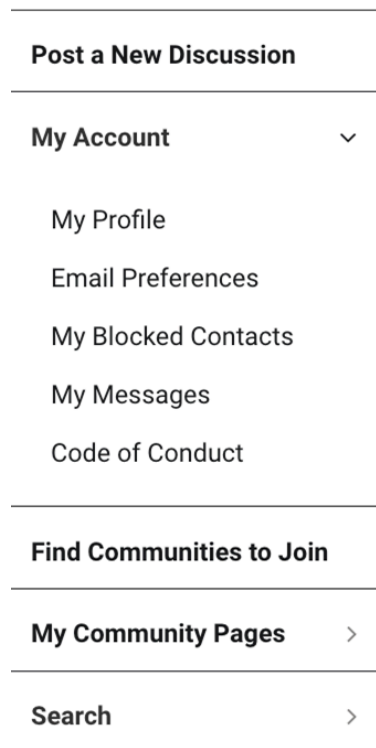

AMIA Connect is your online community to connect with Health Informatics colleagues.

Getting Started is easy!

The menu on the left side of the screen has most of the tools to get you started.

Find Communities to Join

My Community Pages ＞

Search ＞

Upload a Profile Picture

- Profile photos are maintained in the AMIA database. To change or upload a new photo, sign in to AMIA.org and head to your profile page.

- Once you're on your profile page, click the pencil icon next to your current photo to open the search file manager in your device.

- Select your new picture and upload.

How to Post a New Discussion

- In the left menu under *My Account*, click *Post a New Discussion*. A dialog will appear.

- First, select the community you wish to post the discussion to. Next enter the subject of your post.

- Finally, enter the details of your post. You can attach files or using the WYSIWYG add inline images. Click Post and you're done!

Be sure to read and follow the community posting guidelines.
Always maintain professional courtesy and post things that will add value to the community.

Online Community
Quick Start Guide.

AMIA CONNECT

AMIA Connect is your online community to connect with Health Informatics colleagues.

Join a Discussion Group

- Click **"Find Communities to Join"** on your left menu.

- **View Available Groups**: You will see a list of groups you can join, depending on the group settings.

- To join an open community, click the "Join Group" button.

- **Search and Filter**: Use the search box or filter by community type to help you find specific groups.

Send a Private Message

- Under "My Account," click "My Messages."

- Click "Compose Message." Enter the subject of your message, then start typing the contact's name, and as suggestions appear, click on the desired name. You can message multiple people.

- Type your message, attach files, or add inline images using the WYSIWYG editor. Finally, click "Send Message."
